

AriaMail2 Compact and Flexical Manager

YOUR STATE OF THE ART VOICE MAIL SYSTEM

With the AriaMail2 your company and staff will never miss a call again.

The AriaMail2 is an all-in-one digital call management system specifically tailored to small, medium and large sized businesses.

AriaMail2 is available in two models, the Compact and the Flexicall Manager. The Compact provides voice mail, auto attendant and customisable on-hold messaging/music functionality while the Flexicall Manager offers all of this plus advanced features such as SMS service*, desktop management and self administration.

AriaMail2 utilises solid-state digital technology, which has no moving parts. It has a robust and reliable platform which is 100% PC free so you don't have to worry about a hard-drive failure.
